Kennedy Slaying Claimant a Suicide

JUAREZ, Mexico, July 5 (UPI)—Police said today Crispin Curiel Gonzalez, 17, a Mexican-American who said he was involved in the assassination of Sen. Robert F. Kennedy, was found hanged in his hospital psychiatric cell.

Authorities had said they did not believe Gonzalez' story and felt he did it for publicity. But he had been put under observation in the psychiatric wing of Liberty Hospital in Juarez, just across the border from El Paso, Tex. Gonzalez was arrested last month after a passer-by picked up a letter he had dropped and found it said he claimed to be an accomplice to the Kennedy shooting.
